DETAILED ACTION

1. This office action is in response to the amendment filed on May 17, 2004, in which claims 1-28 are presented for further examination.

Remark

2. After further reviewed the invention as claimed, the examiner has found the possible restriction is required.

Election/Restriction

2. The following inventions is required under 35 U.S.C. 121:

- | | | |
|-------|------|--|
| Group | I. | Claims 1-2, drawn to a computer system for accessing files in a main file system, classified in class 707, subclass 1. |
| Group | II. | Claims 3-13, and 15-28, drawn to a method for preparing a custom file system for computer system, classified in class 707, subclass 101. |
| Group | III. | Claim 14, drawn to a method for managing file system, classified in class 707, subclass 202. |

3. A telephone call was made to William F. Nixon (Reg. No. 44,262) on August 3, 2004 to request an oral election to the above restriction requirement, but there was no communication and did not result in an election being made.

4. Applicants are required under U.S.C 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally help to be allowable. Currently, no claims are generic.

5. Applicants are advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non responsive unless accompanied by an election.

6. Upon the allowance of a generic claim, applicants will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicants must indicate which are readable upon the elected species. MPEP 809.02(a).

7. Should applicants traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

8. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

9. Applicants also are reminded that upon the cancellation of claims to a non-elected

invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).
